How to Connect to CanesGuest, the University of Miami’s guest wireless network.

MAC OS X

1. From the top bar select your wireless icon. If you do not have a wireless icon on top, please see below for your specific OS X version for instructions.

2. Wait a moment as your computer scans for the networks available in your area. Once the list populates select CanesGuest.

3. Before being able to browse the Internet, you will need to login as a Guest and agree to the terms and conditions listed here.

Welcome to the University’s Guest Wireless Network

Guest Wireless User Login

CanesGuest provides FREE wireless network access for guests. The CanesGuest wireless network is an open (does not require a password), unsecured, and unencrypted network, and must not be used for University business. Faculty, staff, and students should only use the SecureCanes network, which has the added security to protect the University's sensitive academic, administrative, and medical records information.

Login as a Guest

For instructions on how to connect to SecureCanes, please click here. By clicking on the button above, you have agreed to the CanesGuest Access Terms of Use and Privacy Notice.

For technical issues, please contact the UMIT Service Desk at (305) 284-5600.

Session expiration: After logging in, your connection will remain active for eight hours. However, your connection may terminate if your device appears to be inactive for more than 10 minutes during the eight-hour period.

Event Registration & Login

Click here if you have an event code, but need a login and PIN (typically new users)
